

ETL Developer @ One**point**

(PUNE_JD2025-07_IN.002)

Become part of Team Onepoint

Onepoint does more than solving complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, knowledge sharing, innovative mindsets, personal growth, and career progression. Add in the company's forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

A boutique, values-driven, business-oriented technology consultancy, Onepoint's teams architect, prototype, build, and manage enterprise-grade solutions for global clients to help them realise their strategic digital priorities.

About the role

As an ETL Developer/Data Engineer, you will focus on developing new features, implementing unit tests and help develop forward-thinking development strategies. You are passionate about developing software and scripting to maintain complex data-related systems, with vision and talent to contribute to emerging areas such as cloud technologies. Working together with highly skilled technical experts, you will be a driving force in building world-class solutions for our clients across the globe.

Contract type	Permanent, typically working from UK 8:00 am – 5:00 pm and it may vary as per client requirement
Location	Pune, India
Experience	Up to 2-4 years

What will you work on

- Design, develop, deploy and maintain solutions on premise or in the cloud.
- Contribute to designing software components to improve reusability and maintainability.
- Integrate software components with third-party systems.
- Troubleshoot, debug and maintain existing software.
- Recommend and execute improvements to solutions and processes.
- Build templates and platform extensions to be reused to improve productivity of our team.
- Write the necessary documentation for the developed components.
- Anticipate, identify, and solve data related issues.

Who will you work with

You will be reporting to the Technical Lead. You will work with Onepoint Project Leader, client-side Project Manager, and other talented Onepoint teammates.

What you will bring to the team

- Minimum Bachelor's Degree in Computer Science or equivalent stream.
- Experience developing with ETL tool (e.g. Boomi, ADF, DataStage, Informatica)
- Experience with Java 8+, Python, JavaScript, SQL, DDL, No SQL, JSON, XML, XPath and regular expressions.
- Experience with REST API development.
- Experience with ETL, MDM, ESB, Data Quality and Data Profiling.
- Knowledge of data warehousing/ data modelling knowledge.
- Knowledge of databases such as Snowflake, SQL Server, Oracle, Synapse, etc.
- Knowledge of design patterns and Software Development Life Cycle.
- Knowledge of Cloud platforms and services for AWS, Azure or GCP.

What strengths you will bring to the team

- Excellent written and verbal communication skills in English.
- Excellent interpersonal skills to collaborate with various stakeholders.
- Good reasoning and logical ability.
- A learning enthusiast who loves constant learning and enjoys new challenges.
- A proactive Self-Starter with excellent time management skills.
- Data analytical skills to raise the right questions and understand the big picture.

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below to careers-india@onepointltd.com.

1. What virtue, do you value the most at work and why?
2. How do you keep up to date with the technology that is constantly changing?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?

Benefits

We continually empower our employees to take charge of their career & personal well-being. Besides the life-work balance, self-development, and participative decision-making, you also tap into the following array of perks:.

- Flexible working.
- 18 days of annual leave.
- Provident fund.
- Comprehensive Health Insurance coverage of INR 5 Lakhs will be provided for the duration of employment, for the employee, spouse, and children. Insurance can be optionally taken for the employee's parents.
