

Lowcode Developer @ **One**point

(PUNE_JD2022-10_IN.004)

Become part of Team Onepoint

Onepoint does more than solving complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, knowledge sharing, innovative mindsets, personal growth, and career progression. Add in the company's forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

A boutique, values-driven, business-oriented technology consultancy, Onepoint's teams architect, prototype, build, and manage enterprise-grade solutions for global clients to help them realise their strategic digital priorities.

About the role

As a Low-code Developer, you will focus on designing and developing new features using low-code/no-code platforms, implement unit tests and help develop forward-thinking development strategies. You are passionate for designing and developing efficient code with high standards, with a vision and talent to contribute to the areas of emerging technologies. You like logic and solving puzzles. Working together with highly skilled technical experts you will be a driving force in building world-class solutions for our clients across the globe.

Contract type	Permanent, typically working from UK 8:00 am – 5:00 pm and it may vary as per client requirement
Location	Pune, India
Experience	2+ years

What will you work on

- Design software components in a smart way to improve reusability and maintainability using traditional and modern (low-code and no-code) application development platforms.
- Develop backend and frontend functionalities with high-quality standards and proper unit tests.
- Build templates and platform extensions to be reused and improve the productivity of our team.
- Accurately document implemented designs and produced code.

Who will you work with

You will be reporting to the Engineering Manager. You will work with Onepoint Project Leader, client-side Project Manager, and other talented Onepoint teammates.

What you will bring to the team

- Minimum Bachelor's Degree in Computer Science or equivalent stream.
- Experience with SQL, JSON, XML, HTML5, CSS3, JS, REST APIs.
- Experience building flows to accomplish backend functionalities.
- Experience in UI/UX development.
- Experience of low-code and no-code platforms. (e.g. PowerApps, Power Automate, Quickbase)
- Experience in automated unit testing and integration testing.
- Experience with design patterns and Software Development Life Cycle.
- Knowledge of SOAP and REST API endpoints.
- Knowledge of Cloud platforms and services for AWS, Azure or GCP.
- Knowledge of scripting language and wireframes software.

What strengths you will bring to the team

- Excellent written and verbal communication skills.
- Excellent interpersonal skills to collaborate with various stakeholders.
- Good analytical skills to raise the right questions and understand the big picture.
- A learning enthusiast who loves constant learning and enjoys new challenges.
- A proactive Self-Starter with excellent time management skills.

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below to careers-india@onepointltd.com.

1. What virtue, do you value the most at work and why?
2. How do you keep up to date with the technology that is constantly changing?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?

Benefits

We continually empower our employees to take charge of their career & personal well-being. Besides the life-work balance, self-development, and participative decision-making, you also tap into the following array of perks:.

- Flexible working.
- 18 days of annual leave.
- Provident fund.
- Comprehensive Health Insurance coverage of INR 5 Lakhs will be provided for the duration of employment, for the employee, spouse, and children. Insurance can be optionally taken for the employee's parents.
