

Junior Developer @One**point**

(CMB_JD2022-11_LK.007)

Become part of Team Onepoint

Onepoint does more than solve complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, innovative mindsets, knowledge sharing, personal growth, and career progression. Add in the company's forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

A boutique, values-driven, business-oriented technology consultancy, Onepoint's teams architect, prototype, build, and manage enterprise-grade solutions for global clients to help them realise their strategic digital priorities.

About the role

As a Junior Developer, you will focus on developing new features, implementing unit tests, and help develop forward-thinking development strategies. You are passionate about developing software and scripts to maintain complex systems. Your vision and talent will contribute in new emerging areas such as cloud technologies. You like logic and solving puzzles. Working together with highly skilled technical experts, you will be a driving force in building world-class solutions for our clients across the globe.

Contract type	Permanent, typically working UK hours (08:00 to 17:00 UK). Hours may vary depending on client requirements. Your local working hours in Sri Lanka will adjust based on seasons (to match UK day light savings time).
Location	Colombo, Sri Lanka
Experience	Up to 2 years

What will you work on

- Contribute on designing software components to improve reusability and maintainability.
- Develop backend functionalities with high-quality standards with proper unit tests.
- Build templates and platform extensions to improve productivity of our team.
- Document implemented designs and the produced code accurately.

Who will you work with

You will be reporting to a Technical Lead. You will typically work with a Onepoint Project Leader, a client-side Project Manager, and other talented Onepoint colleagues.

What skills you will bring to the team

- A recognised qualification in Computer Science (e.g. a Bachelor's Degree) or equivalent experience (e.g. 1-2 years in a similar work role).
- Experience with JAVA8+ and Python.
- Experience with SQL and databases.
- Knowledge of No SQL databases.
- Knowledge of JSON and REST API endpoints.
- Knowledge of XML and SOAP API endpoints.
- Knowledge of HTML5, CSS3 and JS (JavaScript).
- Knowledge of stream programming such as Java Streams.
- Knowledge of automated unit testing and integration testing.
- Knowledge of design patterns and Software Development Life Cycle.

What strengths you will bring to the team

- Excellent written and verbal communication skills in English.
- Excellent interpersonal skills to collaborate with various stakeholders.
- A learning enthusiast who would quickly pick up new programming languages, technologies, and frameworks.
- A proactive Self-Starter with time management skills.
- Good analytical skills to raise the right questions and understand the big picture.

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below to careers-lanka@onepointltd.com.

1. What virtue do you value the most at work and why?
2. How do you keep up-to-date with technology that is constantly changing?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?

A bit about benefits

We continually empower our employees to take charge of their career and personal wellbeing. Besides the life-work balance, self-development, and participative decision-making, you also tap into an industry-leading compensation package, including **your Rupee (LKR) salary pegged to Pounds Sterling (GBP)** to adjust for local currency fluctuations and **an array of thoughtful perks**.
