# Mobile App Developer

@ One**point**

(PUNE_JD2023-01_IN.001)

Become part of Team Onepoint

Onepoint does more than solve complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, innovative mindsets, knowledge sharing, personal growth, and career progression. Add in the company's forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

A boutique, values-driven, business-oriented technology consultancy, Onepoint's teams architect, prototype, build, and manage enterprise-grade solutions for global clients to help them realise their strategic digital priorities.

About the role

As a Mobile App Developer, you would be running and designing application features across various cross platforms and devices and are passionate about code writing, solving technical errors and taking up full ownership of app development. You are passionate about maintaining quality assurance in all deliverables to support our goodwill. You have a foresight to create a test strategy and test plan. You have an eye for detail, and you don't assume anything. Working together with highly skilled technical experts you will be a driving force in building world-class solutions for our clients across the globe.

Contract type	Permanent, typically working from UK 8:00 am – 5:00 pm. May vary as per client requirement
Location	Pune, India / Remote
Experience	3+ years experience in Mobile application development

What will you work on

- Developing new features and user interfaces from wireframe models or design prototypes
- Ensuring the best performance and user experience of the application
- Fixing bugs and performance problems
- Writing clean, readable, and testable code
- Cooperating with back-end developers, designers, and the rest of the team to deliver well-architected and high-quality solutions
- Document accurately the implemented designs and the produced code.

Who will you work with

You will be reporting to a Technical Lead. You will typically work with a Project Lead, a client-side Project Manager, and other talented Onepoint colleagues.

What skills you will bring to the team

- Extensive knowledge about mobile app development. This includes the whole process, from the first line of code to publishing in the store(s)
- Deep knowledge of developing and deploying apps to Android and iOS platforms using frameworks like Flutter and React Native, as well as native code
- Proficiency in React Native, Flutter and native development
- Proficiency with writing automated tests
- Familiarity with RESTful APIs /GraphQL and mobile libraries for networking
- Familiarity with the JSON format
- Experience with profiling and debugging mobile applications
- Strong knowledge of architectural patterns—MVP, MVC, MVVM, and Clean Architecture—and the ability to choose the best solution for the app
- Familiarity with push notifications
- Understanding mobile app design guidelines on each platform and being aware of their differences

What strengths you will bring to the team

- Excellent written and verbal communication skills in English.
- Excellent interpersonal skills to collaborate with various stakeholders.
- A learning enthusiast who would quickly pick up new programming languages, technologies, and frameworks.
- A proactive Self-Starter with excellent time management skills.
- Problem-solving and analytical skills across technical, product, and business questions.
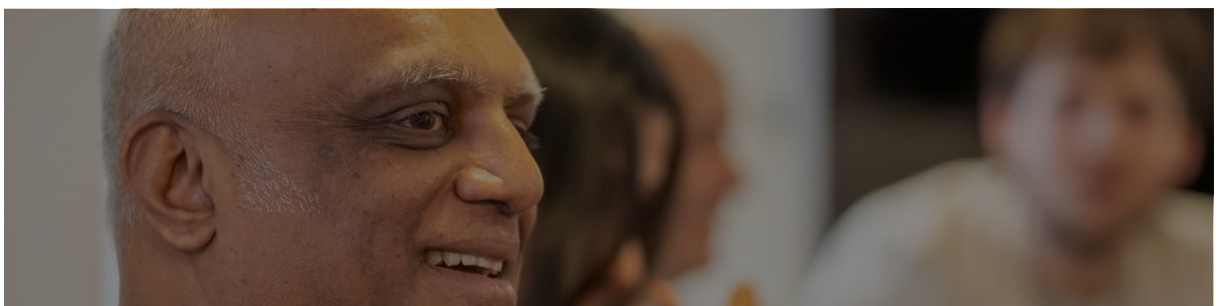

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below to

1. What virtue, do you value the most at work and why?
2. How do you keep up to date with the technology that is constantly changing?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?

Benefits

We continually empower our employees to take charge of their career & personal well-being. Besides the life-work balance, self-development, and participative decision-making, you also tap into the following array of perks:

- Flexible working.
- 18 days of annual leave.
- Provident fund.
- Comprehensive Health Insurance coverage of INR 5 Lakhs will be provided for the duration of employment, for the employee, spouse, and children. Insurance can be optionally taken for the employee's parents.
