

Frontend Developer @ One**point**

(PUNE_JD2023-02_IN.004)

Become part of Team Onepoint

Onepoint does more than solve complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, innovative mindsets, knowledge sharing, personal growth, and career progression. Add in the company’s forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

A boutique, values-driven, business-oriented technology consultancy, Onepoint’s teams architect, prototype, build, and manage enterprise-grade solutions for global clients to help them realise their strategic digital priorities.

About the role

As a Frontend Developer, you would be developing code for existing and new websites, developing frontend efficient code, maintaining quality assurance in all deliverables. Working together with highly skilled technical experts you will be a driving force in building world-class solutions for our clients across the globe.

Contract type	Permanent, typically working from UK 8:00 am – 5:00 pm. May vary as per client requirement.
Location	Pune, India
Experience	2+ years relevant experience in Frontend development

What will you work on

- Designing and building web applications from scratch.
- Adding new functionalities and test existing websites and web applications.
- Improving performance issues in existing applications.
- Building templates and platform extensions/plugin-ins.
- Customizing HTML and CSS of Joomla and Wordpress sites.
- Modifying and customizing Wordpress and Joomla plugins.
- System administration of Joomla and Wordpress websites.
- Documenting accurately the implemented designs and the produced code.

Who will you work with

You will be reporting to a Technical Lead. You will typically work with a Project Lead, a client-side Project Manager, and other talented Onepoint colleagues.

What skills you will bring to the team

- Experience of popular open source CMS's such as WordPress and Joomla.
- Experience with HTML5, CSS3 and Javascript in both responsive and native mobile applications.
- Experience with PHP and Wordpress or Joomla plug-in development.
- Experience with CSS frameworks like e.g. Bootstrap, Sass and TailwindCSS
- Experience with Software Development Life Cycle.
- Knowledge of Wireframes software and typical website development process.
- Knowledge of a full stack JS framework, such as NodeJS express, React, Next.js, Strapi, etc.
- Knowledge of REST / GraphQL API endpoints.

What strengths you will bring to the team

- Excellent written and verbal communication skills in English.
- Excellent interpersonal skills to collaborate with various stakeholders.
- A learning enthusiast who would quickly pick up new programming languages, technologies, and frameworks.
- A proactive Self-Starter with excellent time management skills.
- Problem-solving and analytical skills across technical, product, and business questions.

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below to careers-india@onepointltd.com.

1. What virtue do you value the most at work and why?
2. How do you keep up-to-date with technology that is constantly changing?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?

A bit about benefits

We continually empower our employees to take charge of their career & personal well-being. Besides the life-work balance, self-development, and participative decision-making, you also tap into the following array of perks:

- Flexible working.
- 18 days of annual leave.
- Provident fund.

Comprehensive Health Insurance coverage of INR 5 Lakhs will be provided for the duration of employment, for the employee, spouse, and children. Insurance can be optionally taken for the employee's parents.
