The Coming Storm: Unprecedented Growth In Workloads

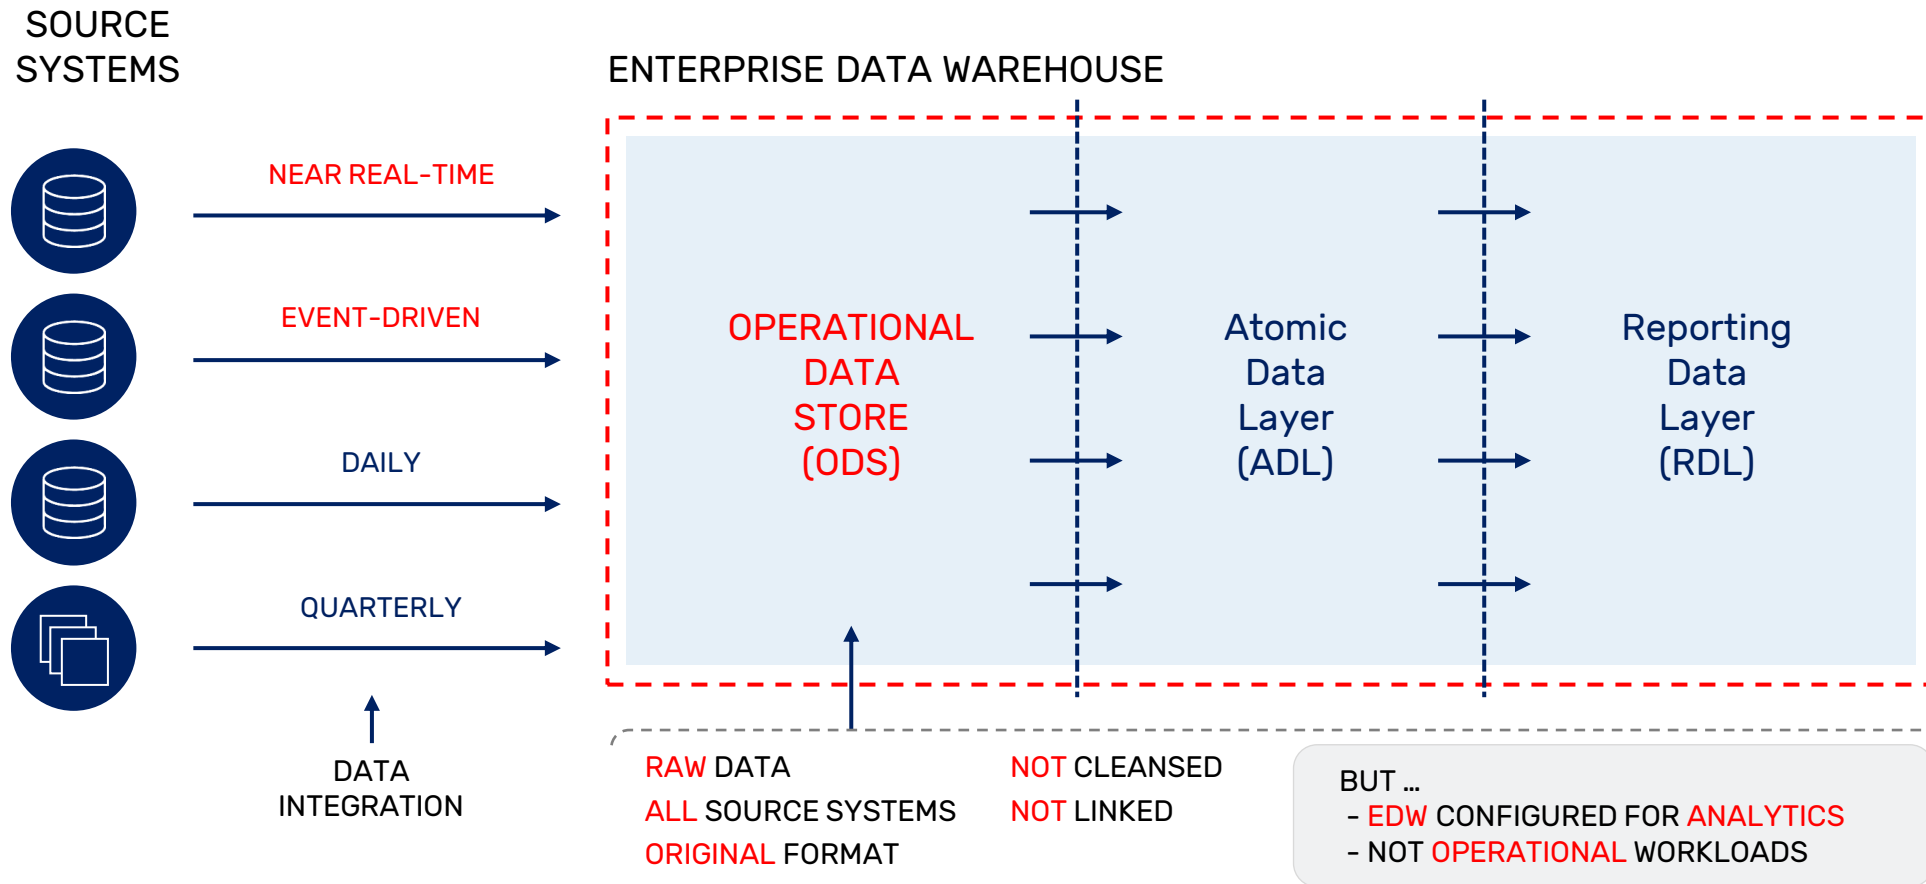

Compromised Solution: Grocery Retailer

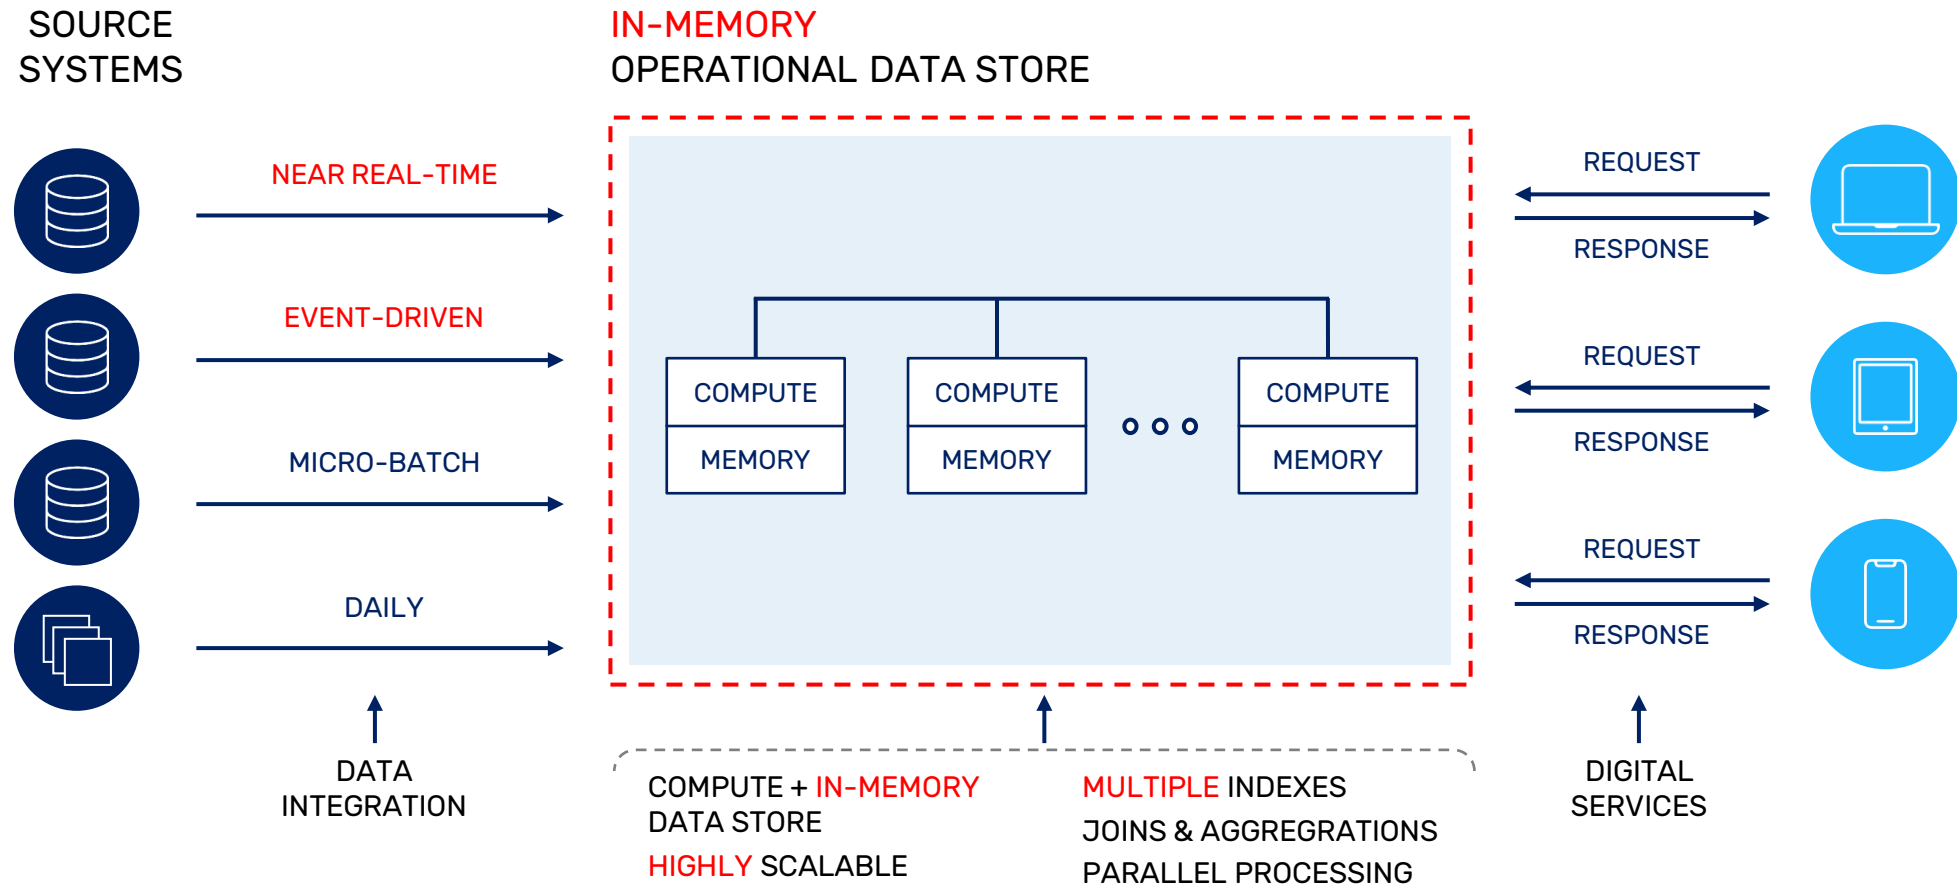

Compromised Solution: Market-leading Bank

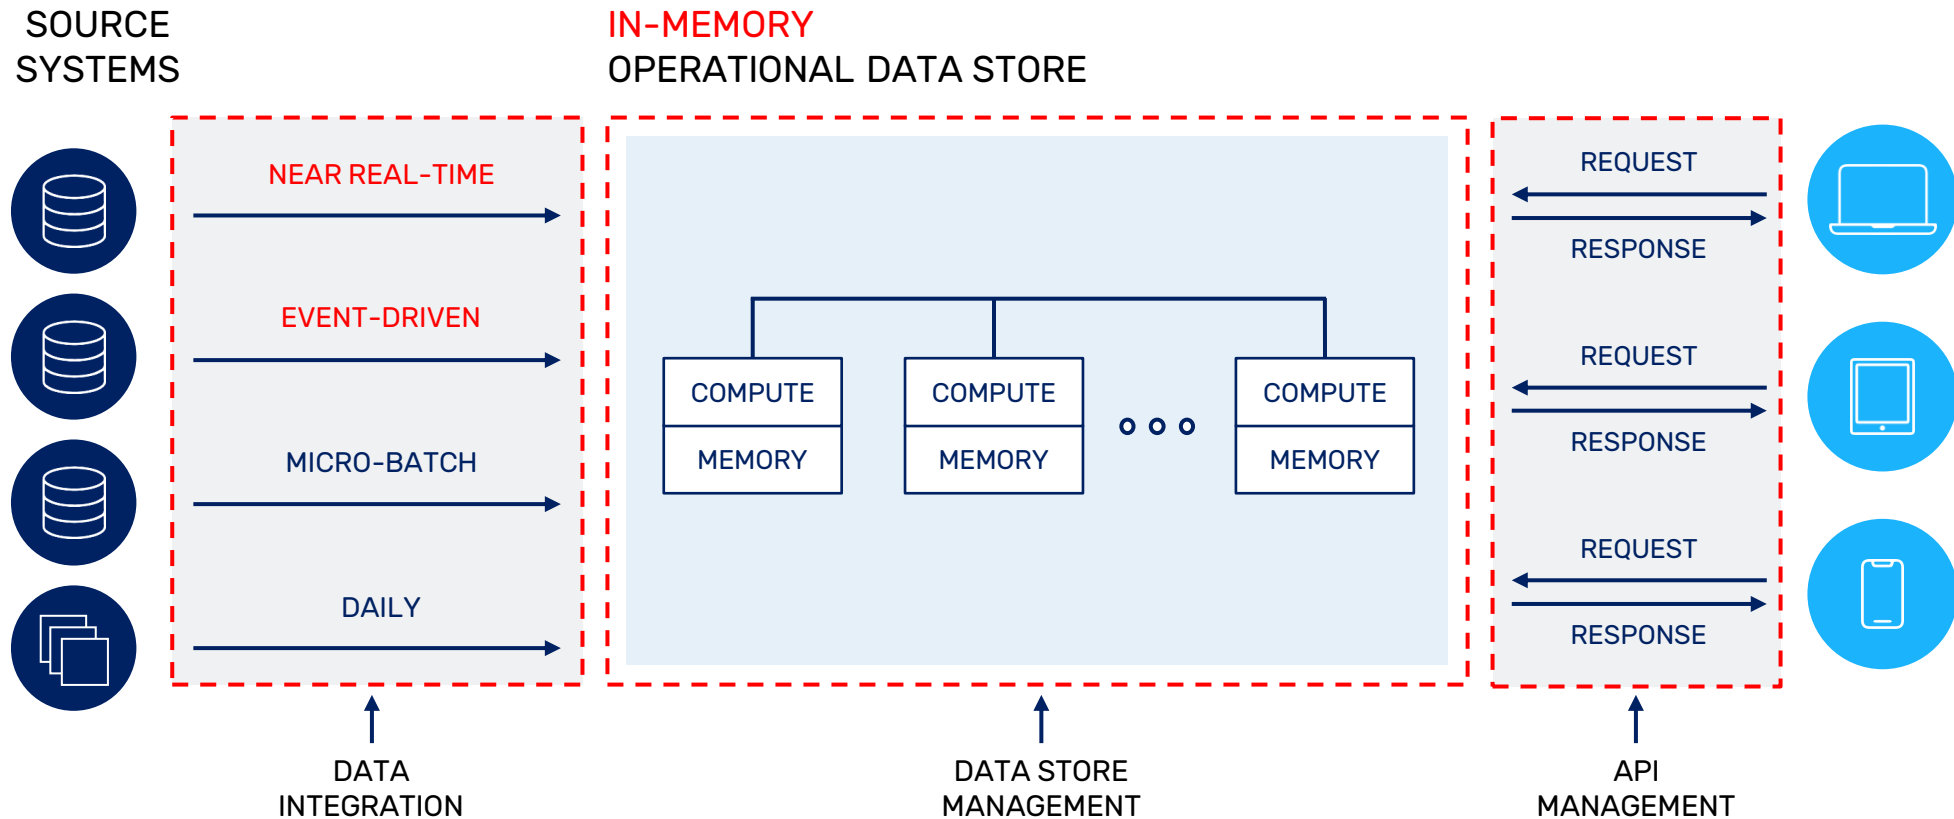

Analytical Operational Data Store

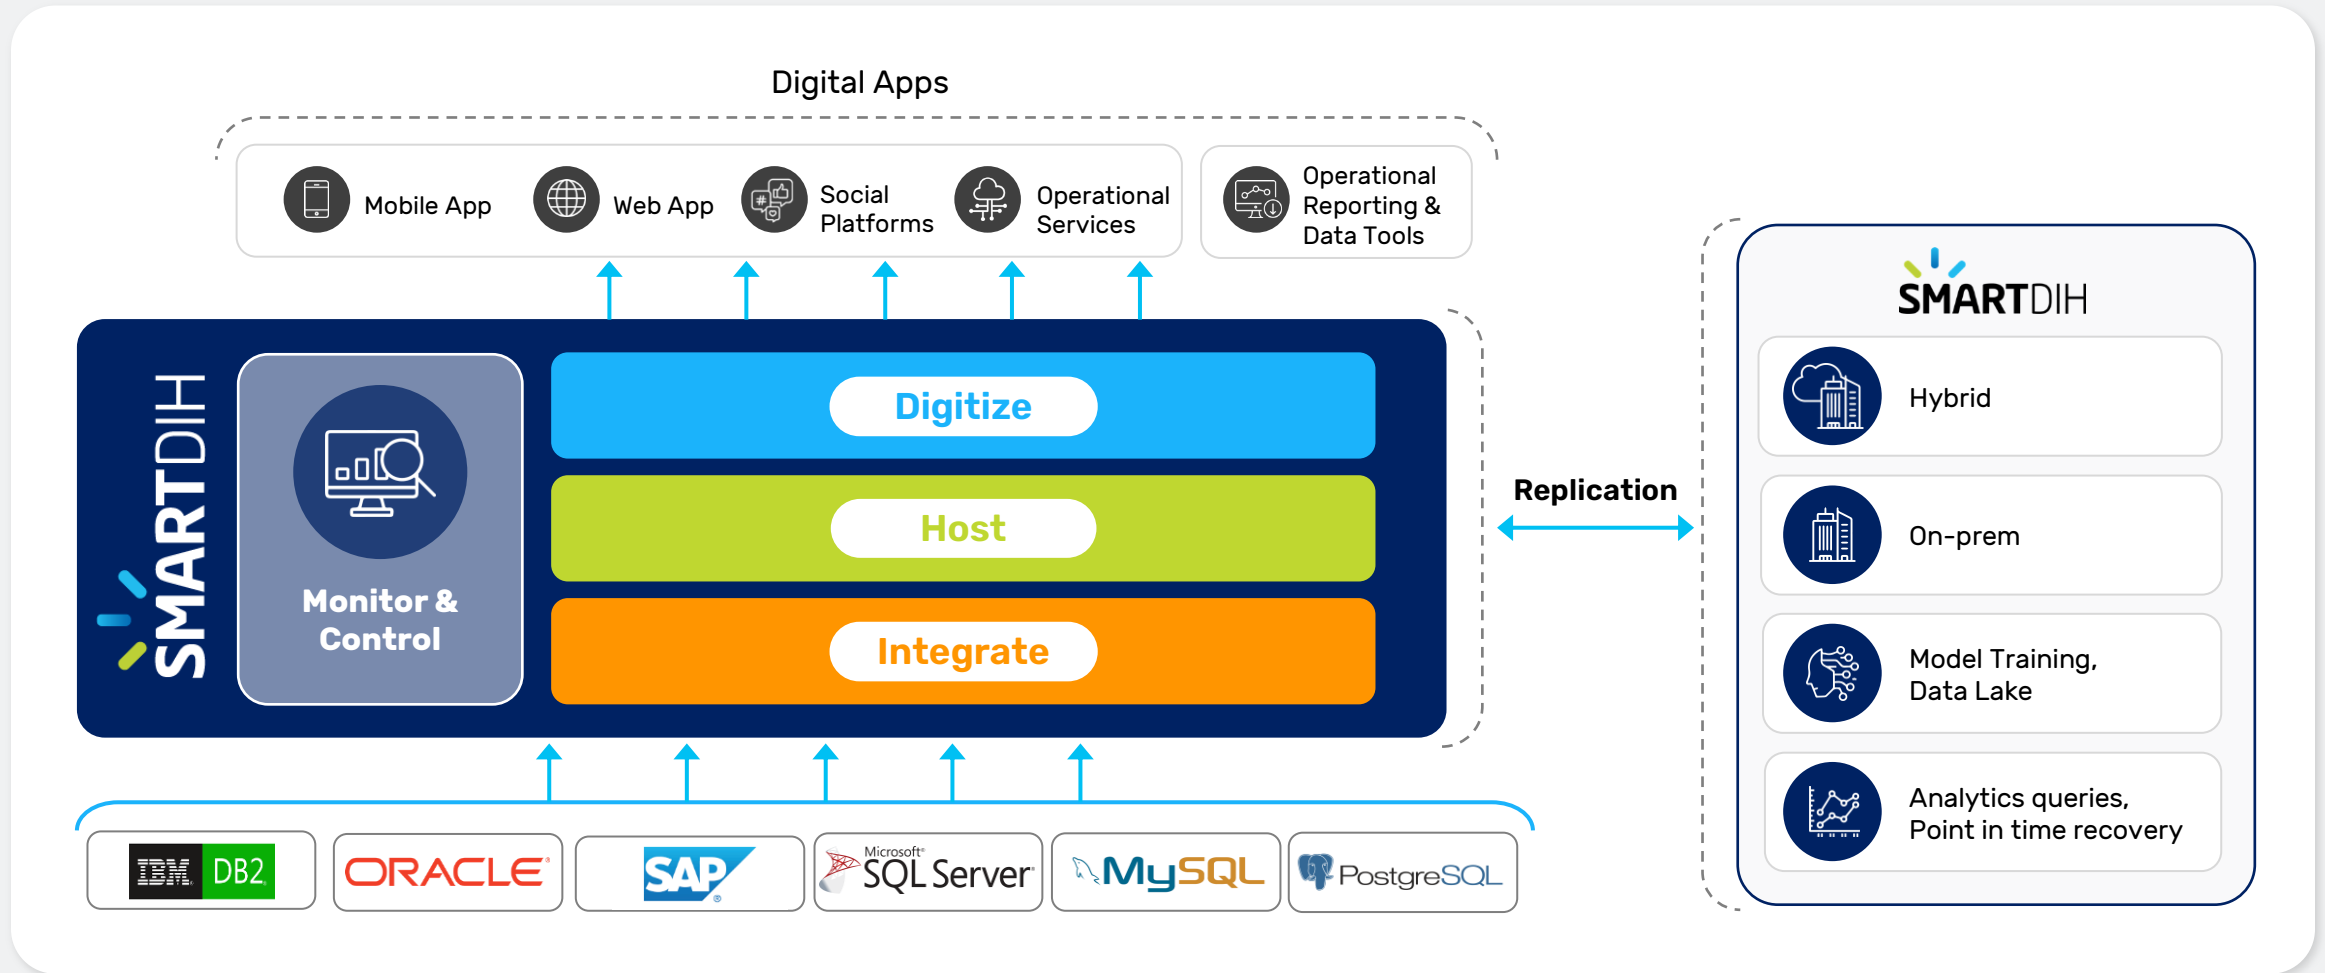

'Live' Operational Data Store (Aka In-memory Data Grid)

'Live' Data Integration Hub

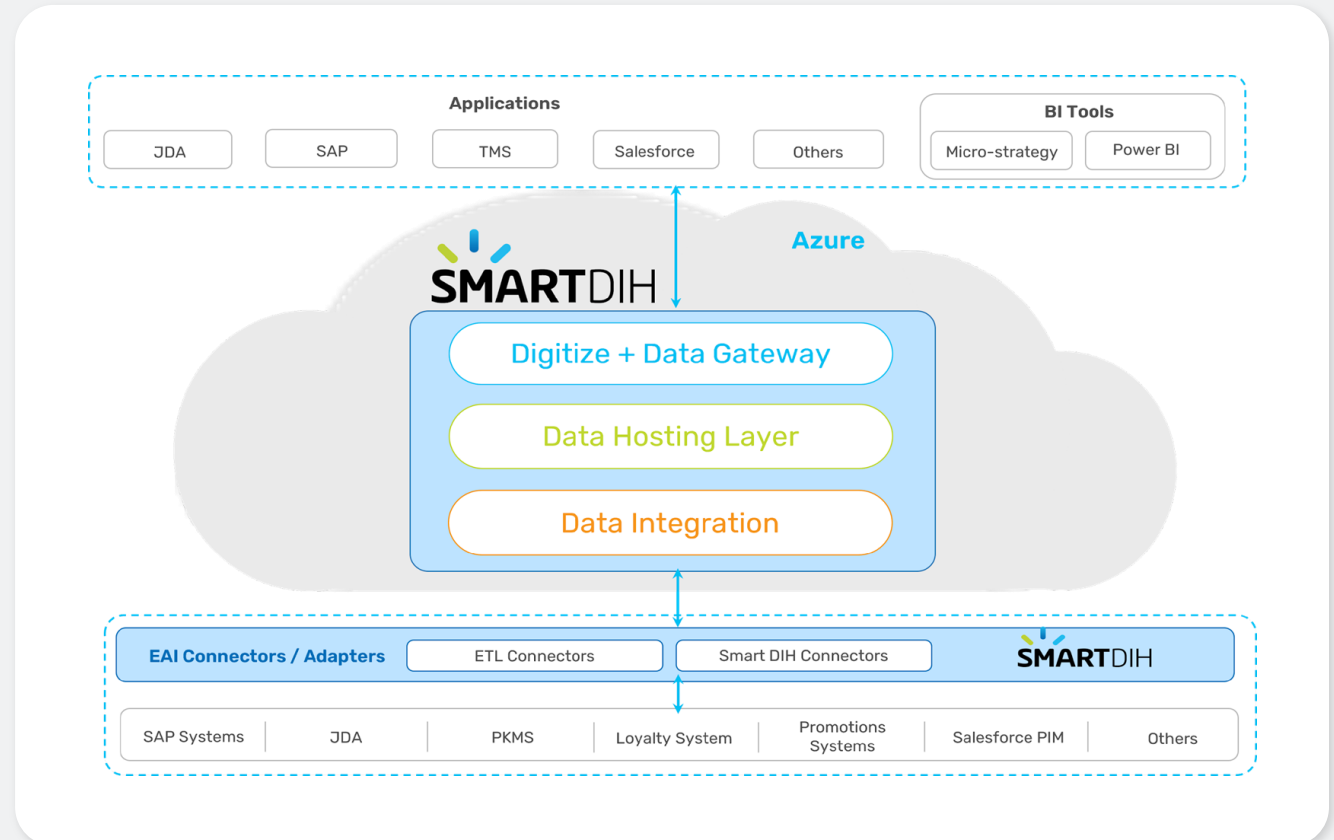

Smart DIH Under the Hood

Leading US Retail Chain

Re-architected data stack for modernization over SAP & other systems

- Highly responsive online customer experience
- 360 view of customers for better upsell/cross-sell opportunities
- Lower costs due to reduced hardware provisioning
- Low-code APIs for launching new offers at a rapid pace
- Scale quickly to support seasonal peaks

One point: A boutique, values-driven, business-oriented technology consultancy headquartered in London

What we do

We architect, prototype, build, and manage enterprise-grade solutions for global clients looking for high-impact, business outcome and business-value driven technology enablement around four strategic digital priorities.

- Power better total experiences
- Prove & power products and services
- Realise value from data, analytics, AI / ML
- Transform, scale & deliver IT

Who we serve

Business, technology, data, and analytics leaders who seek a technology consultancy that thrives on solving complex problems using technology innovations to power deep, transformative change choose Onepoint.

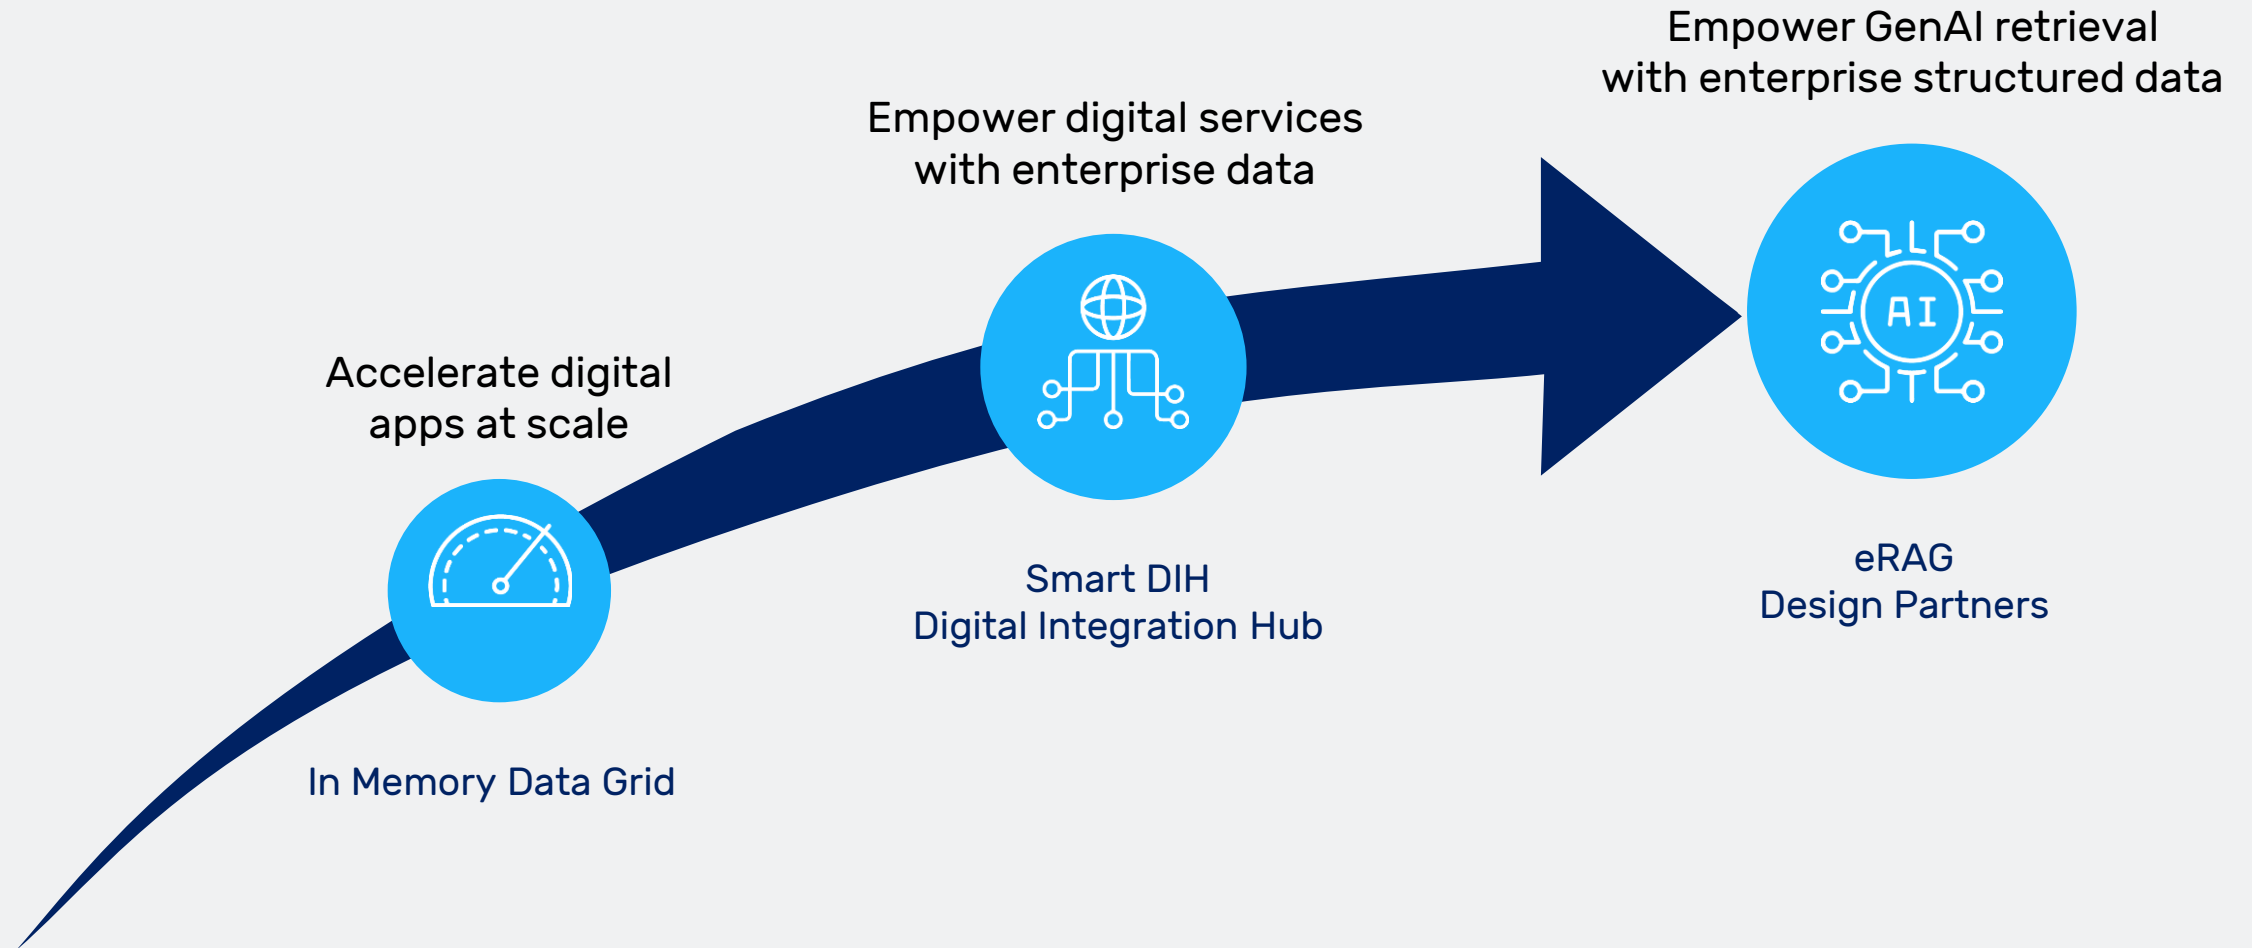

Who we partner with

Longstanding partnerships with carefully-chosen platforms allow us to rapidly deploy base technology stacks that are most appropriate to each client situation. Yet our independence means we always use the right solution for you every time.

GigaSpaces: Leading the way in real-time data accessibility and innovation
