

UI/UX Designer

@  **ONEPOINT**

(PUNE_JD2025-10_IN.001)

Become part of Team Onepoint

Onepoint does more than solve complex digital challenges. It is a place for you to explore your potential, elevate yourself, and transform your career. An opportunity to belong to a diverse international team knit together by a culture built on respect and integrity. A team with deep technical and business expertise, emboldened by a supportive, nurturing environment. An environment that celebrates the diversity of thinking, innovative mindsets, knowledge sharing, personal growth, and career progression. Add in the company's forward-thinking management and a commitment to offering a healthy life-work balance, and you start to get an insight into the magic sauce that makes Onepoint a uniquely special place to work.

Onepoint is an award-winning technology consultancy with a 20-year heritage in enterprise architecture. From early-stage ideas to enterprise-scale adoption, Onepoint helps organisations weave AI and automation into their DNA to create real business value.

About the role

As a UI/UX designer, you would be creating designs for websites, apps, presentations, and marketing materials to help our teams communicate effectively and deliver engaging experiences. You are passionate about user-centred design, visual storytelling, and exploring how AI tools can enhance creativity and efficiency. You have an eye for detail, and you don't assume anything. Working together with skilled technical and marketing experts and collaborating closely with other designers, you will help create cohesive, world-class experiences that strengthen our brand and support business growth.

Contract type	Permanent, typically working from the UK 8:00 am – 5:00 pm. May vary as per client requirements.
Location	Pune, India
Experience	0 to 1 year experience as a UI/UX Designer

What will you work on

- Design visuals and marketing assets that bring the brand's story to life across digital platforms.
- Support campaigns, landing pages, and product interfaces by translating concepts into clear, consistent visual language.
- Create clean, engaging, and user-centred interfaces with focused designs for web and mobile.
- Experiment with AI-assisted design tools to ideate, generate visuals, or streamline workflows.
- Collaborate with marketing and development teams to maintain design consistency.
- Design reusable branded templates for Microsoft and Google Suite.

Who will you work with

You will be reporting to a senior UI/UX designer and collaborating closely with the marketing team. You will also work with developers, project managers, and other creative professionals to translate ideas into engaging user experiences.

What skills you will bring to the team

- Prior experience with Figma, Adobe XD, or similar interface and layout design tools.
- Familiarity with Microsoft & Google Suite for creating template designs.
- Knowledge of graphic design principles – layout, typography, and colour theory.
- Awareness of AI design tools and curiosity to explore new creative technologies.
- Strong visual communication skills and an understanding of brand consistency.
- Basic understanding of HTML/CSS or CMS platforms (e.g., WordPress) is a plus.

What strengths you will bring to the team

- A curious and creative mindset with an interest in both design and marketing communication.
- Openness to learning new tools, technologies, and AI-driven workflows.
- Strong organisational skills with the ability to manage multiple design tasks efficiently.
- A proactive self-starter with excellent time management skills.
- Excellent interpersonal skills to collaborate with various stakeholders.
- Excellent written and verbal communication skills in English.

We want to know more about you

So, you know a bit about us now. To get us started, we would love to get a little glimpse into what you are about. Send us your CV and short answers to the four questions below at careers-india@onepointltd.com:

1. What virtue do you value the most at work, and why?
2. How do you keep up to date with the constantly changing technology?
3. How soon will you be available to join if appointed?
4. What is your current and expected salary?
5. Please share your work portfolio with us.

Benefits

We continually empower our employees to take charge of their career & personal well-being. Besides the life-work balance, self-development, and participative decision-making, you also tap into the following array of perks:

- Flexible working hours.
- 18 days of annual leave.
- Provident fund.
- Comprehensive health insurance coverage of INR 5 lakhs will be provided for the duration of employment for the employee, spouse, and children. Insurance can be optionally taken for the employee's parents.
